Package condensed mince meat is made up today of the best quality of dried fruit and other items which can

be found, all of which are found in the United States with the exception of spices and currants. The study of packing condensed mince meat has extended over a period of 100 years and today is as near its perfection as we can possibly conceive. The sanitation in the factories in which it is packed is beyond reproach as the competition today in these lines necessitates the guarding of the most minute detail of the business. The apples used are of the best grade of New York State, where in our opinion is grown the best flavored apple known. The raisins used are of the best quality sceded variety. No expense is con-sidered in procurring the very highest grade of spices, and sugar, as we all know, is always sugar, the different grades merely representing the differ-ent flavors or different granulation required for different purposes. Every particle of fruit or any other article used in the manufacture of mince meat is thoroughly cleaned and hand-picked by people trained to know what should and should not be used and in this manner the article comes to the house-Everything has a new look about this time; men like to be "in it," too.

Your Spring Suit—or anything you want to wear—is here ready for you. We know you want to wear—is here ready for you. We know you want to wear—is here ready for you. We know you want to wear—is here can be used as handlify by the house wife as mince meat for all it requires is a little water and being heated for ten minutes and it is ready for the crust and then the table and she may without fear of less carry three or four packages of mince meat in her pantry, having it ready at any time for the chance occurrence of unexpected company and it will be a good ed company and it will be a good dessert free from dirt. It is our thorough belief that a mince meat pie made from condensed mince meat page made from condensed mince meat is about as cheap a dessert as can be prepared and yet as good.

For many years mince meat was considered a winter dish. Each year for the last ten our factory has had to increase its capacity during the summer months until today it runs a control of the year with a require

summer months until today it runs every day of the year with a regular force of helpers. We ship goods to every part of the country the entire year. This of course means a great increase in the use of these goods over when mince meat was eaten only in the winter months which means an increased sale over the former winter
